NXLevel Wins Two Brandon Hall Awards of Excellence

Lambertville, NJ, September 1, 2020 — NXLevel Solutions, a leading developer of training programs for the life sciences industry, has won two Brandon Hall Group Excellence Awards for the company's work with its life sciences clients. Brandon Hall Awards are considered among the most prestigious achievements in the learning & development industry. This marks the second consecutive year the company was named an award winner.

The Janssen "*STELARA UC Pre-Launch Training Program*" won a Gold Award in the Best Unique or Innovative Learning and Development Program category; and the company's PharmaCertify compliance training group won a Bronze Award in the Best Advance in Compliance Training category for two Sage Therapeutics courses, "*Living Our Values*" and "*FOCUS Framework Live*."

Peter Sandford, Executive Vice President at NXLevel, gives credit to the company's creative production teams involved in the development of these programs, and especially to NXLevel's clients who provide the freedom to stretch the boundaries of traditional training. "We are fortunate to have built a staff of dedicated and talented instructional designers, artists, and developers over the last 16 years of business," says Sandford, "and I am proud to know the work we create for leading organizations like Janssen and Sage Therapeutics is ultimately making a difference in the lives of the patients those companies serve."

About NXLevel Solutions

NXLevel Solutions creates eLearning, strategic microlearning, workshops, and interactive programs that enhance retention and improve performance in the life sciences industry. In addition to custom training for sales, medical affairs, and systems & process training, the company offers a full suite of compliance-focused off-the-shelf products and custom compliance training through its PharmaCertify division.
